

NCI 2023 Preliminary program

Day 1, April 25th, 2023

9.30-10.00	Coffee and registration
10.00-11.55	Session 1, Chronic coronary syndrome; How to investigate according to the current guidelines
	Update in the ESC guidelines - Juhani Knuuti (Turku, Finland)
	Real life experience based on the Swedeheart -registry - Tomas Jernberg (Stockholm, Sweden)
	What is the role of coronary CT angiography? - Bjarne Linde Nørgaard (Aarhus, Denmark)
	Myocardial perfusion imaging; What is new? - Henrik Engblom (Lund, Sweden)
	MINOCA; what, why and how? - Chiara Bucciarelli-Ducci (Bristol, United Kingdom)
	Stress echo in coronary artery disease: State of the art - Eugenio Picano (Pisa, Italy)
12.00-12.25	Session 2, Sponsors: Future Perspectives
12.25-13.05	Lunch
13.05-14.35	Session 3, Valvular heart disease from an imaging perspective
	Transcatheter or surgical aortic valve replacement for low risk patients; The cardiologist perspective - Andreas Rück (Stockholm, Sweden)
	Transcatheter or surgical aortic valve replacement for low risk patients; The cardiac surgeon perspective -Henrik Bjursten (Lund, Sweden)
	Tricuspid regurgitation surgery; Choosing the right patients. - TBA
	Tricuspid regurgitation clip; Choosing the right patients - Jesper Khedri Jensen(Aarhus, Denmark)
	Mitral regurgitation; Minimal invasive surgery. - Per Wierup (Lund, Sweden)
	Mitral regurgitation; Catheter intervention, more than just a clip - TBA
14.35-15.00	Coffee
15.00-16.30	Session 4, Best thesis from the National Societies
	Norway - TBA
	Sweden - "Blood Flow Specific Assessment of Ventricular Function Visualization and Quantification using 4D Flow CMR" - TBA
	Denmark - "DECIDE: The Role of Cardiovascular Magnetic Resonance Imaging in Assessment of Right Heart Adaption in Pulmonary Arterial Hypertension" - Christoffer Göransson (Copenhagen, Denmark)
	Finland - "Combined use of PET perfusion imaging and coronary computed tomography angiography in evaluation of CAD" - Teemu Maaniitty (Turku, Finland)
	Iceland - "Hypertrophic Cardiomyopathy in Iceland. A nationwide genotype-phenotype study" - Berglind Adalsdottir (Reykjavik, Iceland)
16.35-18.10	Session 5, Imaging in right ventricular disease
	Guidance of chronic thromboembolic pulmonary hypertension treatment - Arne Andressen (Oslo, Norway)
	Atrial septal defects; What and when of clinical relevance? - Niels Vejlstrup (Copenhagen, Denmark)
	Tetralogy of Fallot; How should we assess them and why? - Philipp Beerbaum (Hannover, Germany)
	When is right ventricular assessment relevant in left heart disease? - TBA
	Pulmonary arterial hypertension; What should we be looking for? - Ellen Ostenfeld (Lund, Sweden)
19.15-	Dinner

NCI 2023 Preliminary program

Day 2, April 26th, 2023

08.30-10.00	Session 6, Systemic disease; When imaging is the game changer of treatment
	Systemic Sclerosis - TBA
	Cardio-oncology - Sebastian Imre Sarvari (Oslo, Norway)
	Diastolic dysfunction and HFpEF - Frank A. Flachskampf (Sweden/Germany)
	Amyloidosis - TBA
	Endocarditis - Jan Otto Beitnes (Oslo, Norway)
10.00-10.15	Coffee
10.15-11.45	Session 7, Multimodal imaging in arrhythmia
	Arrhythmogenic right ventricular cardiomyopathy - Kristina H. Haugaa (Stockholm, Sweden)
	Left ventricular tachycardia ablation <i>- Katja Zeppenfeld (Leiden, Netherlands & Aarhus, Denmark)</i>
	Atrial arrhythmia and left atrial appendage occluder - TBA
	Sudden cardiac death and arrhythmia in adult congenital heart disease - TBA
	Cardiac resynchronisation therapy and ICD - Jens-Uwe Voigt (Leuven, Belgium)
11.45-12.00	Closing remarks
