

Full name	Abstract Number	Title
Aittokallio Jenni	23	In Nordic countries 30-day mortality rate is half that estimated with EuroSCORE II in high-risk adult patients given aprotinin during cardiac surgery
Albåge Anna	27	Minimally invasive mitral valve surgery - an alternative to the conventional sternotomy approach
Arthursson Henrik	11	Cerebral oxygenation and autoregulation during rewarming on cardiopulmonary bypass
Cibin Giorgia	43	gender related early-term outcomes after surgical aortic valve replacement with inspiris resilia valve
Depes Denis	26	Autonomic Innervation in Caval Veins' Myocardial Sleeves Related to Cardiovascular Death
Depes Denis	28	Cardiovascular Mortality and Autonomic Innervation in Myocardial Sleeves Around Pulmonary Veins
Deschka Heinz	16	Analysis of infections occurring during postcardiotomy extracorporeal membrane oxygenation support in adults
Deschka Heinz	33	Early detection of driveline infections with the Moleculight i:X device
Deschka Heinz	37	Diagnosis and treatment options for LVAD outflow graft torsion
Emil Kaspersen Alexander	1	Preoperative anemia is associated with increased long-term mortality risk in patients undergoing coronary artery bypass grafting
Enström Philip	10	The PRECISE-DAPT score identifies CABG patients with increased risk for post-discharge major bleeding
Fridriksson Ellen	6	Long-term stroke/TIA risk after left atrial appendage closure in cardiac surgery patients with atrial fibrillation undergoing lung vein isolation or cryo-maze
Gudbjartsson Tomas	31	The impact of perioperative myocardial infarction on short and long-term outcome following coronary artery bypass grafting
Gudbjartsson Tomas	32	Cardiac transplantation and donation in Icelandic patients - indications and outcome
Gunnarsdóttir Sunna Lu Xi	44	Prolonged Intensive Care Unit Stay after Open Heart Surgery – Incidence and Risk Factors
Hansson Emma	8	Betablockers are not associated with favorable outcome after surgical aortic valve replacement – a report from the SWEDEHEART registry
Hansson Emma	15	Long term follow-up after pericardiectomy due to constrictive pericarditis
Heimisdóttir Alexandra Aldís	29	Long-term outcome of patients undergoing re-exploration for bleeding following cardiac surgery: a SWEDEHEART study
Heitmann Leon	18	A retrospective study on adherence to secondary prevention medications after coronary bypass surgery
Heitmann Leon	40	Non-infectious sternal dehiscence after coronary artery bypass surgery
Herajärvi Johanna	38	Neurological symptoms resolved with interventional radiology in association with type A dissection surgery
Holm Jonas	9	Effect of glutamate infusion on NT-proBNP after coronary artery bypass grafting in high-risk patients (GLUTAMICS II): A randomized controlled trial
Holmberg Erica	20	Biomarkers indicate structural and functional changes due to fibrosis in severe aortic stenosis
Ingason Amar B.	21	The Incidence of New Persistent Opioid Use Following Cardiac Surgery via Sternotomy
Johansson Ramgren Jens	24	Reoperations after repair for atrioventricular septal defects: >25 years experience at a single center
Krasniqi Lytffi	3	Patients with a Mitroflow valve – an indication for reoperation?
Lárusdóttir Katrín Júníana	39	Indications and outcomes of TAVI (transcatheter aortic valve implantation) in Iceland
Lehtinen Miia	36	Complex aortic root surgery using a valved BioIntegral conduit – 9-year single-center experience
Ma Kristina	14	Reoperation or aortic regurgitation progression after reimplantation of the aortic valve (David operation) using the Valsalva graft
Magnadottir Thordis	42	Decreasing incidence of primary spontaneous pneumothorax surgeries in Iceland
Mennander Ari	34	Ascending aortic wall degeneration in patients undergoing bicuspid aortic valve replacement
Mennander Ari	41	Aortic valve tissue analysis after aortic valve surgery
Nielsen Susanne	17	Socioeconomic factors and long-term mortality in patient undergoing surgical aortic valve replacement
Pan Emily	5	Statin treatment after surgical aortic valve replacement due to aortic stenosis is associated with better long-term outcome
Rantasalo Ville	25	Thoracic aorta diameter is associated with intracranial aneurysm size and rupture: A retrospective cohort study
Rezk Mary	7	New-onset postoperative atrial fibrillation, early oral anticoagulation, and long-term outcome after aortic valve replacement
Räsänen Jenni	13	The association of body mass index with 30-day mortality and perioperative red blood cell transfusions in open heart surgery
Steinthorsson Ami	30	Outcome of valve repair for degenerative mitral valve disease in a geographically isolated low-volume center
Sveinsdóttir Nanna	35	Impact of renal dysfunction on early outcomes of coronary artery bypass grafting surgery
Toimela Juhana Mikael	22	20 years of type B aortic dissections in Finland - population based registry study
Törnudd Mattias	2	Preserved Platelet Function and Numbers after Moderate Cardiopulmonary Bypass Times
Uimonen Mikko	19	Outcome after surgery for acute type A aortic dissection is not solely determined by intimal tear resection
Vilkki Valtteri	4	Incidence of re-treatment after invasively managed primary spontaneous pneumothorax – comparing tube thoracostomy with surgical treatment as primary treatment
Wedin Johan	12	Left atrial dysfunction in bicuspid aortic valve patients with severe aortic stenosis is associated with postoperative atrial fibrillation following aortic valve replacement
