

NCI 2020 Preliminary program

Day 1, April 21, 2020

9.30-10.00	Coffee and registration
10.00-11.55	Session 1, Chronic coronary syndrome; How to investigate according to the new guidelines
	Update in the ESC guidelines - Juhani Knuuti (Turku, Finland)
	Real life experience based on the Swedheart -registry - David Erlinge (Lund, Sweden)
	What is the role of coronary CT angiography? - Bjarne Linde Nørgaard (Aarhus, Denmark)
	Myocardial perfusion imaging; What is new? - Henrik Engblom (Lund, Sweden)
	MINOCA; what, why and how? - Niels Vejlstrup (Copenhagen, Denmark)
	Stress echo in coronary artery disease: State of the art - Eugenio Picano (Pisa, Italy)
12.00-12.25	Session 2, Sponsors: Future Perspectives
	-
	-
	-
12.25-13.05	Lunch
13.05-14.35	Session 3, Valvular heart disease from an imaging perspective
	TAVI vs SAVR for low risk patients. The cardiologist perspective - Andreas Rück (Stockholm, Sweden)
	TAVI vs SAVR for low risk patients. The cardiac surgeon perspective - Henrik Bjursten (Lund, Sweden)
	TR surgery. Choosing the righth patients. - Morten Smerup (Copenhagen, Denmark)
	TR clip. Choosing the righth patients. - Jesper Khedri (Aarhus, Denmark)
	MR - Repair or replace. - Shahab Nozohoor (Lund, Sweden)
	MR - Catheter intervention, more than just a clip - Nikolaj Ihlemann (Copenhagen, Denmark)
14.35-15.00	Coffee
15.00-16.30	Session 4, Best thesis of 2018 and 2019
	Norway - Øyvind Li (Oslo, Norway)
	Sweden - "Blood Flow Specific Assessment of Ventricular Function Visualization and Quantification using 4D Flow CMR" - Alexandru Grigorescu Fredriksson (Linköping, Sweden)
	Denmark - "DECIDE: The Role of Cardiovascular Magnetic Resonance Imaging in Assessment of Right Heart Adaption in Pulmonary Arterial Hypertension" - Christoffer Göransson (Copenhagen, Denmark)
	Finland - "Combined use of PET perfusion imaging and coronary computed tomography angiography in evaluation of CAD" - Teemu Maaniitty (Turku, Finland)
	Iceland - "Hypertrophic Cardiomyopathy in Iceland. A nationwide genotype-phenotype study" - Berglind Adalsdottir (Reykjavik, Iceland)
16.35-18.10	Session 5, RV disease
	Treatment of CTEPH - Arne Andressen (Oslo, Norway)
	Imaging in ASD; clinical relevance - Ulf Thilén (Lund, Sweden)
	ToF, How should we assess them and why? - Philipp Beerbaum (Hannover, Germany)
	When is RV assessment relevant in LV disease? - Jan Engvall (Linköping, Sweden)
	PAH; what should we be looking for? - Ellen Ostenfeld (Lund, Sweden)

NCI 2020 Preliminary program

Day 2, April 22, 2020

08.30-10.00	Session 6, Imaging in systemic disease; When imaging is the game changer of treatment
	Systemic Sclerosis - Roger Hesselstrand (Lund, Sweden)
	Cardio-oncology - Sebastian Imre Sarvari (Oslo, Norway)
	Diastolic dysfunction and HFpEF - Frank A. Flachskampf (Sweden/Germany)
	Amyloidosis - Steen Hvidtfeldt Poulsen (Aarhus, Denmark)
	Endocarditis - Jan Otto Beitnes (Oslo, Norway)
10.00-10.15	Coffee
10.15-11.45	Session 7, Multimodal imaging in arrhythmia
	Arrhythmogenic right ventricular cardiomyopathy - Öyvind Li (Oslo, Norway)
	Left ventricular VT ablation - Katja Zeppenfeld (Leiden, Netherlands & Aarhus, Denmark)
	Atrial arrhythmia and Left atrial appendage occluder - Ole De Backer (Copenhagen, Denmark)
	Sudden cardiac death and arrhythmia in adult congenital heart disease - Inga Voges (Hamburg, Germany)
	Cardiac resynchronisation therapy and ICD - Jens-Uwe Voigt (Leuven, Belgium)
11.45-12.00	Closing remarks
