

5<sup>th</sup> International Symposium on

# Post Cardiac Arrest Care 2022

Pre-meeting workshop:

## Course EEG-monitoring after cardiac arrest, October 19, 2022

Conference room at the Department of Clinical Neurophysiology at Skåne University hospital in Lund, Elevator B, Second floor, Central building, Skane University Hospital in Lund, Sweden

08:30 – 08:40	Welcome and introduction
08:40 – 09:10	<b>EEG – Basic theory</b>
09:10 – 09:30	<b>cEEG in the ICU</b>
	Coffee 15 minutes
09:45 – 10:00	<b>cEEG in the ICU</b> – continued
10:00 – 10:30	<b>aEEG</b> – amplitude integrated EEG
10:30 – 11:30	<b>cEEG after cardiac arrest</b>
11:30 – 12:00	<b>Routine EEG after cardiac arrest</b>
	Lunch 60 minutes
13:00 – 13:15	The EEG-monitor – Get to know the software
13:15 – 14:30	<b>Practical session</b> in small groups – Interpret a simplified cEEG
	Short break 10 minutes
14:40 – 15:30	<b>Postanoxic status epilepticus</b> – practical approach
	Coffee 15 minutes
15.45 – 16.45	<b>EEG after cardiac arrest</b> – future perspectives
16.45 – 17.00	Sum up - questions

Course-leaders

Erik Westhall, MD, PhD, Clinical Neurophysiologist, Skåne University Hospital, Lund, erik.westhall@med.lu.se

Sofia Backman, MD, PhD, Clinical Neurophysiologist, Skåne University Hospital, Lund
