

# Mosquitoes are not impressed by face masks

Dengue and Zika: The causes and consequences  
of their increasing global prevalence

## INVITATION

**Thursday 9 June 2022, 12:40–13:50 CEST**

Willem Burger Zaal Hall, De Doelen International Conference  
Center Rotterdam

We are delighted to invite you to the Takeda-sponsored symposium at the NECTM8 2022 congress, titled **'Mosquitoes are not impressed by face masks'**. During this event, we will be discussing the growing global burden of dengue and the current Zika threat in a world of climate change and increasing travel. Please join us to hear more and have your say during the audience Q&A and panel discussion.

**Meeting Chair**

Prof. Robert Steffen  
Switzerland

Prof. David Hamer  
USA

**Faculty**

Prof. Tomas Jelinek  
Germany

Dr. Aaron Farmer  
Thailand
